

FEEDING YOUR NEW PUPPY

SINCE TOY BREED PUPPY TUMMYS ARE SMALL IT'S VERY IMPORTANT THEY EAT 4 TO 5 TIMES A DAY. SINCE EACH PUPPY IS DIFFERENT (ACTIVITY LEVEL & METABOLISM PLAY A PART.)

FOOD AMOUNTS: 1 POUND PUPPY 1/4 CUPS OF FOOD

3 POUND DOG REQUIRES 1 CUP OF FOOD

5 POUND REQUIRES 1.25 CUPS

6 POUND REQUIRES 2 CUPS

THE AMOUNT OF FOOD INCREASES AS THEY GROW. GIVE 4 MEALS A DAY UNTIL 6 MONTHS TO 3 MEALS A DAY UNTIL 1 YEAR TO 2 MEALS A DAY.

IF THE PUPPY STOPS EATING AFTER 5 TO 15 MINUTES HE'S FULL. BUT IF HE OR SHE EATS IT ALL WITHIN 10 MINUTES ADD ANOTHER 1/3 CUP.

ALSO WHEN GETTING A NEW PUPPY I WOULD RECOMMEND TWICE A DAY SOFTFOOD FOR THE FIRST WEEK ALONG WITH THE DRY FOOD.
